THROTTLE CONTROLLER Performance & Technology

BLITZ Throttle Controller FULL AUTO LIGHT

【PRODUCT OVERVIEW】

- "THROTTLE CONTROLLER FULL AUTO LIGHT", lower cost version of the "THROTTLE CONTROLLER" series, priced from ¥19,800.
 - Simple interface, with single ON/OFF switch. Vivid blue LED is used for the switch.
 - Total 10 modes are available, as same as PRO version: regular 8 modes and 2 AUTO modes.
 - By using ultra low power consumption circuit, additional +12V power supply is eliminated, which was required for some of previous model applications.
 - More precise control was achieved by automatically learning the vehicle sensor signal.
- Chance of ECU error was greatly reduced by full micro computer (TTL) control, to avoid over multiplication of the signal..
- Smooth driving with AUTO mode by seamlessly controlling the throttle automatically depending on the driving condition.
 - In addition to 2 "AUTO" modes, 2 "ECO" modes for economical driving, , 3 "Mild" modes for regular city driving, and 3 "SPORT" modes for sharp acceleration are available. Total of 10 modes are available. Modes can be changed with rotary switch on the main unit.
 - Carries the safety feature from the previous model: REVERSE CANCEL HARNESS can be used (Separately available), "Back to normal" function when malfunction occur.
- Also, initial mode when ignition switch is turned ON can be selected. (Requires separately available REVERSE CANCELL HARNESS)
- Function can be turned ON/OFF with a push of a button.
