

Additional Application

- Impressively low priced radiator with new core and manufacturing method.
- By using a 42mm thick core and high volume side tank, heat radiating capability is greatly improved.
- By using the new outer fin to increase the heat radiation.
- 1/8PT hole attached to pull the water temperature sensor easier
- Despite the low cost, tanks are buff polished for a high quality finish.
- The drain with alumite coated and the dedicated radiator cap as a standard.

No.18863
