

Additional Application

THROTTLE CONTROLLER Performance & Technology

BLITZ Throttle Controller FULL AUTO LIGHT

【PRODUCT OVERVIEW】

- "THROTTLE CONTROLLER FULL AUTO LIGHT", lower cost version of the "THROTTLE CONTROLLER" series, priced from ¥19,800.
- Simple interface, with single ON/OFF switch. Vivid blue LED is used for the switch.
- Total 10 modes are available, as same as PRO version: regular 8 modes and 2 AUTO modes.
- By using ultra low power consumption circuit, additional +12V power supply is eliminated, which was required for some of previous model applications.
- More precise control was achieved by automatically learning the vehicle sensor signal.
Chance of ECU error was greatly reduced by full micro computer (TTL) control, to avoid over multiplication of the signal.
- Smooth driving with AUTO mode by seamlessly controlling the throttle automatically depending on the driving condition.
- In addition to 2 "AUTO" modes, 2 "ECO" modes for economical driving, 3 "Mild" modes for regular city driving, and 3 "SPORT" modes for sharp acceleration are available. Total of 10 modes are available. Modes can be changed with rotary switch on the main unit.
- Carries the safety feature from the previous model: REVERSE CANCEL HARNESS can be used (Separately available), "Back to normal" function when malfunction occur.

Also, initial mode when ignition switch is turned ON can be selected. (Requires separately available REVERSE CANCELL HARNESS)

- Function can be turned ON/OFF with a push of a button.
