

TOKYO AUTO SALON 2013 with NAPAC

BLITZ will exhibit at "TOKYO AUTO SALON 2013 with NAPAC" at Makuhari Messe Convention Center in Chiba Prefecture for 3 days, starting from January 11th to 13th in 2013.

●-Last year's exhibit-**●Exhibition Vehicles -**

BLITZ RACING PROJECT BRZ which competes at Tsukuba Circuit Time Attack will be displayed with the NEW AERO PARTS. TOYOTA 86 (FR-S) will also display the NEW AERO along with a street use turbocharger. The K-CAR range expands from last year, N-ONE will be displayed with original spoiler and DAMPER ZZ-R. BLITZ_AG will be showing the high flow turbo with high boost version of the MINI Coupe. In the middle of the booth, we are planning to give a damper demonstration. Using an Impreza, we will show different electrically displayed products along with an E-ESC demonstration.

Information

● Exhibition Products -

The E-ESC (Electronic Exhaust Sound Controller) was a really popular item from last year's Auto Salon, and will be displayed on a production model. A new design of DAMPER ZZ-R with airbag system and DSC-FOUR (4 Wheel Independent Damping System Controller) will be also be demonstrated.

We will show our original designed 86(FR-S)/BRZ parts in a dedicated corner.

The booth will be larger than last year, so we hope you can come and enjoy viewing and touching all of the Blitz products on display.
