

## Additional Application

### THROTTLE CONTROLLER Performance & Technology

### BLITZ THROTTLE CONTROLLER FULLAUTO PLUS

- New function “High Sports”, “Eco Auto” and “Custom Auto” etc can be set upon drivers preference by 23 mode.
- In addition to the existing acceleration bar graph, screen can now be viewed in digital format too.
- Purchasing the optional Scrambled switch not only can be used as a Scramble mode, can also enable Scrambling time from 30 sec to 150 sec by cutting to every 30 sec manually.
- Opening the throttle can display peak and warming mode, so it can be used for eco driving.
- ”Reverse cancel harness” is now standard from the optional item as previous model.
- Simple plug-in installation is same as previous model. Some applications share the same connector/wires.
- It sets to “Constantly ON”, the throttle controller activates automatically every time the ignition switch is turned ON.
