

New Product Information

BOOST SENSOR ADAPTER

- Introducing the new Boost Sensor Adapter.
- The Boost Sensor Adapter can take boost pressure readings by being inserted into the genuine pressure sensor.
- Can be installed easily without any fabrication.
- Compact design with an overall length of only 20mm.
- All necessary mounting parts are included in the product.
- ※ In order to install the adapter, it's necessary to modify the genuine engine cover.

Image after the adapter is installed on the 86 (ZN6)
