

New Product Information

NÜR-SPEC VSR

- Due to the mirror polished finish, the SUS 304 stainless muffler has exceptional shine and high durability.
- The newly developed titanium color tail gives the rear view a sporty look.
- The pipe layout and silencer size are all designed vehicle specifically.
- We have prepared a full line up for a variety of categories from sports cars, mini vans, k cars, and imports.
- The aggressive 「QUAD MODEL」 is available as well.
- For some vehicles, a specialized diffusers (Aero Parts) can be equipped to stylishly integrate the body and muffler.
- The new muffler series complies with the new standard for exterior technology with the “2.5R curl tail design”.
Furthermore the muffler has received a prior certificate for passing the new standard for aftermarket muffler and is able to clear the Japanese automobile inspection with no problem.
(※On the condition that the muffler is properly installed and does not have deterioration from ageing.)
