

New Product Information

NÜR-SPEC VSR

- Due to the mirror polished finish, the SUS 304 stainless muffler has exceptional shine and high durability.
 - The newly developed titanium color tail gives the rear view a sporty look.
 - The pipe layout and silencer size are all designed vehicle specifically.
 - We have prepared a full line up for a variety of categories from sports cars, mini vans, k cars, and imports.
 - The aggressive 「QUAD MODEL」 is available as well.
 - For some vehicles, a specialized diffusers (Aero Parts) can be equipped to stylishly integrate the body and muffler.
 - The new muffler series complies with the new standard for exterior technology with the “2.5R curl tail design”.
- Furthermore the muffler has received a prior certificate for passing the new standard for aftermarket muffler and is able to clear the Japanese automobile inspection with no problem.
- (※On the condition that the muffler is properly installed and does not have deterioration from ageing.)
