

New Product Information

NÜR-SPEC F-Ti

All titanium exhaust system for the Roadster.

Other than the light weight achieved by the titanium material, the high spec exhaust is anticorrosive and the effects from heat are minimal.

Can be installed on the genuine bumper and BLITZ REAR DIFFUSER. The Quad model utilizes a $\phi 80$ inner curled tail end.

The exhaust has been designed with a main pipe of $\phi 60$ and the total weight is only 3.7kg.

(Genuine exhaust weight: roughly 9.6kg)
