

New Product Information

Idling Stop Jumper

MAZDA ATENZA

DAIHATSU TANTO

【Product Characteristic】

The 『Idling Stop Jumper』 is able to automatically control the Idling Stop Cancel function.

Every time the engine is turned on the Idling Stop function is reset to stop the engine.

With the 『Idling Stop Jumper』 installed, the Idling Stop function becomes canceled even after the engine is turned on.

Therefore there is no need for any unnecessary operation to be done.

- Installation is very simple with only the Electrical, Grounding and Signaling Wire.
- All other necessary parts for connection is also included in the product.
- A convenient function to bring back the stock setting is built-in.

When the Idling Stop Jumper function is not required, the stock setting can be brought back very easily.
