

New Product Information

SI-drive Start Jumper

SUBARU WRX S4

SUBARU EXIGA

【Product Characteristic】

- The 『SI-drive Start Jumper』 can automatically set the Subaru SI-DRIVE mode to [S].
For Subaru Vehicles, the SI-DRIVE mode is automatically selected to the [I] mode when the engine starts.
However by installing the 『SI-drive Start Jumper』 the setting will be controlled to start the vehicle in the [S] mode.
Therefore there is no need for any unnecessary operation to be done after the engine is turned on.
- Installation is very simple with only the Electrical, Grounding and Signaling Wire.
- All other necessary parts for connection is also included in the product.
- A convenient function to bring back the stock setting is built-in.
When the SI-drive Start Jumper is not required, the stock setting can be brought back very easily.
