

New Product Information

Brake Hold Jumper

TOYOTA VELLFIRE

NISSAN SERENA

【Product Characteristic】

- The Brake Hold function allows the vehicle to maintain its position even without pressing the brakes. The 『Brake Hold Jumper』 is able to automatically control the brake hold function. The Brake Hold function allows vehicles to remain rested at stop lights even without touching the brakes. However, when the engine is turned on, the function is turned OFF by design. With the 『Brake Hold Jumper』 installed, the Brake Hold Function will be automatically turned ON after the driver`s seat belt is equipped. Therefore there is no need for any unnecessary operation to be done after the engine is turned on.
- Installation is very simple with only the Electrical, Grounding and Signaling Wire.
- All other necessary parts for connection is also included in the product.
- A convenient function to bring back the stock setting is built-in. When the Brake Hold Jumper is not required, the stock setting can be brought back very easily.

Product Information
