

## New Product Information

# Speed Jumper

### 【Product Characteristic】

- The 『Speed Jumper』 is able to cut the 180km/h speed limit set on Japanese Domestic Vehicles. The vehicles true potential can be brought out with this product.
- By analyzing the throttle opening and vehicle speed, timing for shifting is managed so the vehicle can accelerate smoothly even beyond 180km/h. Since this device only regulate the speed limiter signal, the vehicle`s combination meter and OBD monitors such as Touch-B.R.A.I.N. will display speeds above 180km/h.
- Compact design which fits within the vehicle`s ECU box.
- With vehicle specific harnesses, connection will be completely bolt on.
