

## New Product Information

# Speed Jumper

### 【Product Characteristics】

- The 『Speed Jumper』 is able to cut the 180km/h speed limiter on Japanese domestic vehicles. Unleash the true potential of your vehicle.
- The speed limiter is cut using the circuit mode function. Therefore all genuine instrumentations will function properly even at speeds exceeding 180km/h.
- Compact design to allow installation near the ECU.
- Includes vehicle specific ECU harness for complete bolt on installation. The vehicle harness does not need to be modified.

Vehicle	Model Year	Model	E/G Model	Remarks
LEXUS				
LC500	2017/04-	URZ100	2UR-GSE	Competition Use Only

- ※ This product is for competition use only and should only be used at the circuit. There is a possibility that you will not be able to receive your car dealer`s warranty. When driving on public roads please follow all traffic laws, drive under the speed limit, and most importantly drive safely.
- ※ This product controls the Circuit Mode function when driving at high speeds. During Circuit Mode, the stock muffler valves will be wide open and the circuit mode lamp will turn on in the instrumentation. The navigation screen will display the message “Transmitting Mode Information to Dealer”
- ※ The vehicle`s driving conditions are all stored in the ECU and the information is transmitted to car dealers and manufacturer. Therefore any problems which occur during circuit mode will not be insured by the dealer. Furthermore, our company will not be held accountable for any damages which may occur.
