Remarks	Installation possible for vehicle equipped with side lift-up seat. Rear damping force adjustment dials are located inside the wheel well.	

■Precautions During Installation

- Since the rear damping force dials are located inside the wheel well, the wheels must be removed in order to gain access.
- The suspension arms and body may come in contact when lowering your vehicle.

■Other Remarks

- Camber can be adjusted with the pillow ball front mount.
- Bump rubber specifically for the rear suspensions are included to improve ride quality when lowered.
- Settings for the spring rate and damping force has been developed for comfortable daily driving.
