

## New Product Information

**Thro Con**  
THROTTLE CONTROLLER

**Power Con**  
POWER CONTROLLER

## Connection Harness

### 【Product Characteristics】

- The new 『Thro Con-Power Con Connection Harness』 links the two products so they can operate together.
- By linking the Thro Con and Power Con together, Smart Mode (5 modes) can be accessed where acceleration response is adjusted accordingly to engine load.
- The 『Power Con』 function can be turned ON/OFF with the optional setting of the Thro Con.  
Power can be increased only when necessary to limit the stress on the engine.
- All necessary parts for installation are included.
