

New Product Information

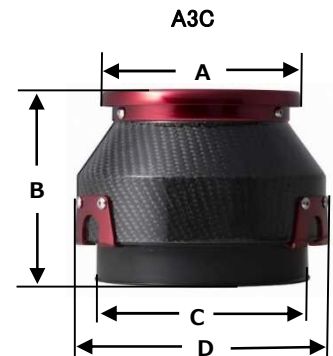

CARBON POWER AIR CLEANER

【Product Characteristics】

- Stainless mesh filter with proven performance from the SUS POWER / ADVANCE POWER series has been utilized.
- Intake area maximizing conical body with M folds has been employed to balance dust collecting ability and intake efficiency.
- The large diameter funnel is surrounded by a Carbon Shield which deflects heat and successfully prevents the intake air temperature from rising.
- By making the shield out of Carbon, the heat emission from the shield itself becomes limited.
- Show off your engine with the fashionable combination of Carbon Shielding and Red Alumite.
- With proper care and cleaning, the stainless mesh filter can be used repeatedly.
