

New Product Information

CARBON INTAKE SYSTEM

■ Product Characteristics

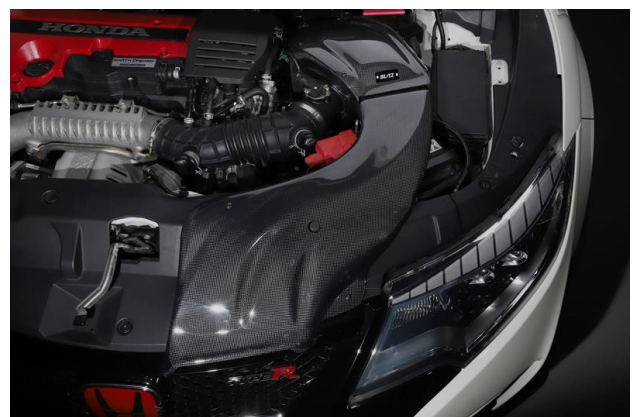

- High performance intake system which has been molded vehicle specifically for precise fitment onto the engine bay.
- While being ultra-light weight, the carbon fiber air duct and casing are highly durable.
- Air flow as well as intake temperature are controlled to its optimum level.
- The filter has been designed to maximize intake efficiency and designed to produce sharp intake sound.
- With proper maintainace the stainless mesh filter can be continuously used.
- Dress up your engine room with the all carbon intake system.

HONDA CIVIC TYPE R

■ Compatible Vehicle & Product Information

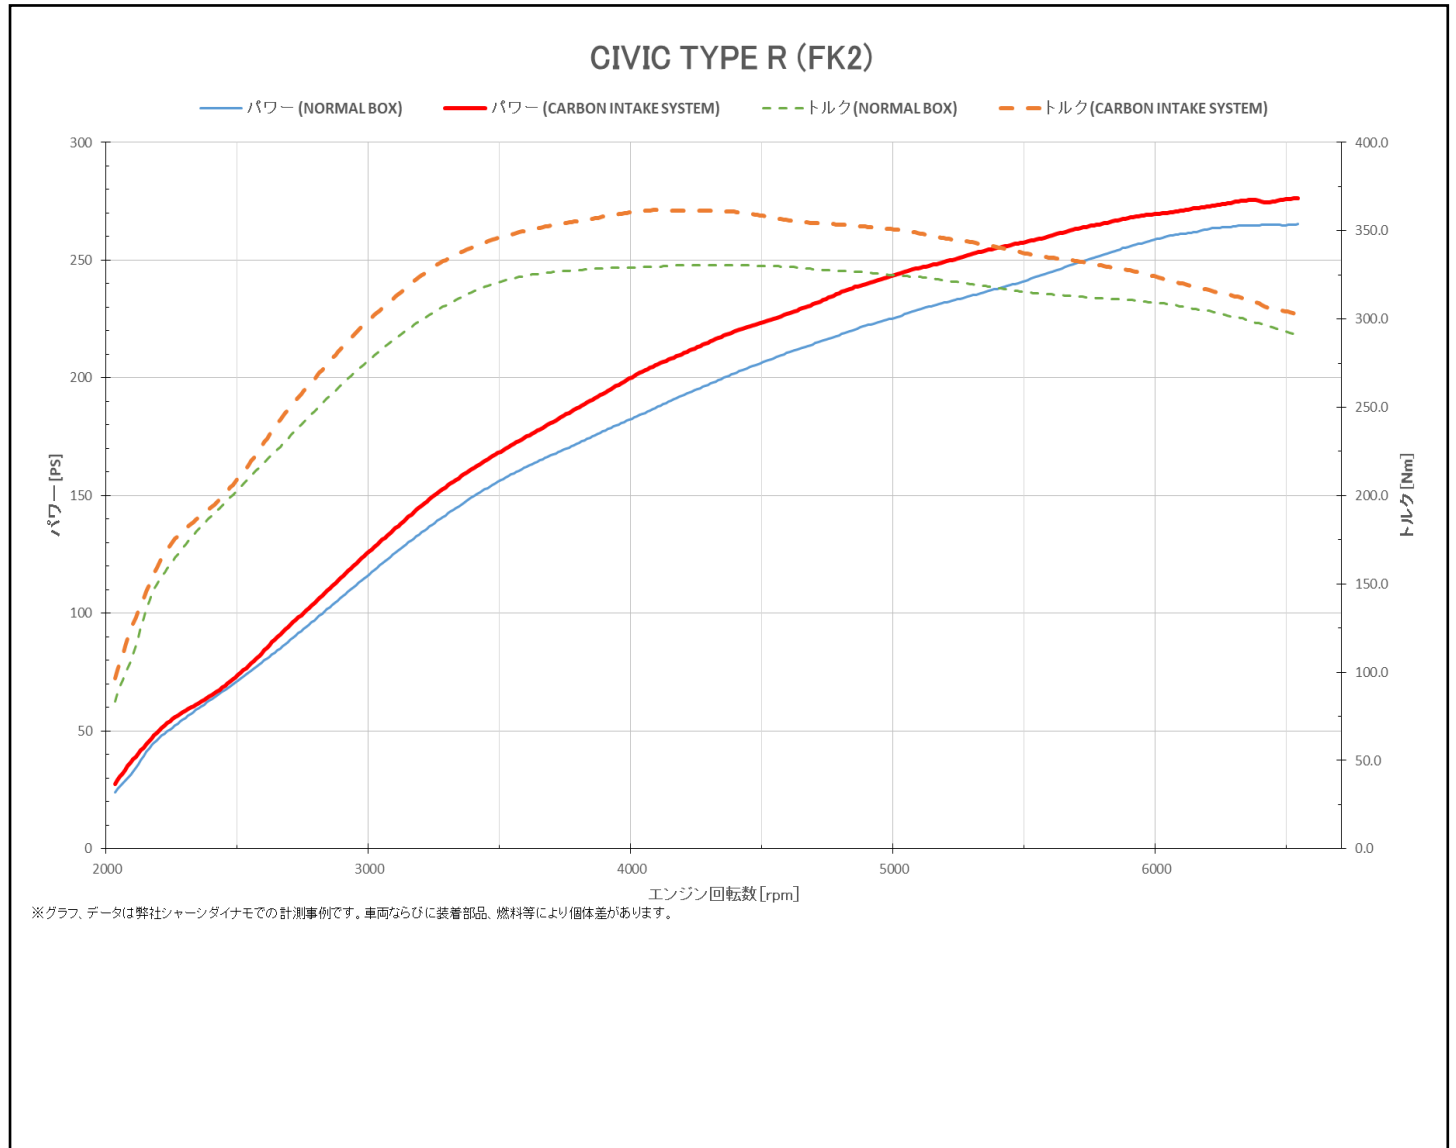

(Product Name)		CARBON INTAKE SYSTEM
Compatible Vehicle Information	(Manufacturer)	HONDA
	(Vehicle)	CIVIC TYPE R
	(Model Year)	15/12-
	(Model)	FK2
	(E/G Model)	K20C
Product Specification	(Core Type)	A3 Stainless Mesh
	(Material)	CFRP CARBON FRP
	(MSRP)	¥128,000
	(MSRP w/tax)	¥138,240
	(Code No.)	27022
	(JAN Code)	4959094270225
	(Remarks)	Compatible with both right hand and left hand drive.

Installation Example

BLITZ INFORMATION

Power & Torque Data

	NORMAL BOX	CARBON INTAKE	
<i>MAX TORQUE (Nm)</i>	330	362	<i>32Nm UP!</i>
<i>MAX POWER (PS)</i>	265	277	<i>12PS UP!</i>

Release Date: January 31st,2019
