

New Product Information

BLITZ TUNING ECU for CIVIC TYPE R

【Product Characteristics】

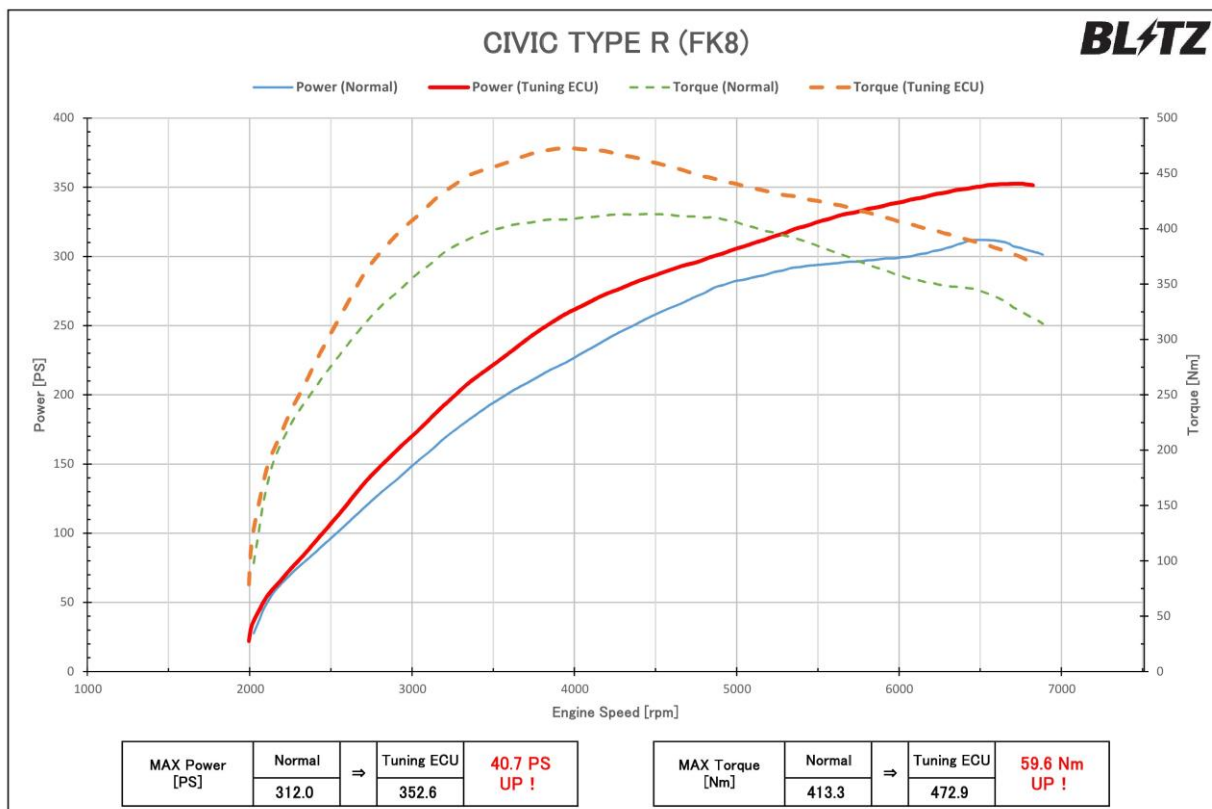

- Stock ECU is rewritten with BLITZ original tuning data to bring out the true potential of the vehicle.
Knowledge acquired from testing on the street and circuit has been compressed into the ECU setting.
- Sufficient safety margins have been kept when modifying the stock ECU to make sure there are no problems.
- The ECU has eliminated the speed limit, increased the rev and boost limit.
Furthermore the fuel and valve timing has been optimized to improve response, power, and torque.
- Compatible with completely stock to modified vehicles equipped with BLITZ Core Type Air Cleaner, NUR SPEC muffler.

Product Information			
Code No.	Product Name	MSRP	JAN Code
15334	TUNING ECU FK8 Civic Type R	¥80,000	4959094153344

Vehicle	Model Year	Model	E/G Model	T/M	Code No.
HONDA					
CIVIC TYPE R	17/09-	FK8	K20C	6MT	15334

BLITZ INFORMATION

Changes made to the program	
Item	Details
Speed Limit	180km/h → 300km/h
Maximum Boost Pressure	約 1.6 × 100kPa → 約 1.8 × 100kPa
Boost Control Map	Modified
Boost Limit Map	Modified
Throttle Map	Optimized
Fuel Map	Optimized
Air-Fuel Map	Optimized
Ignition Map	Optimized
Valve Timing Map	Optimized
Torque Control Map	Optimized

※グラフ、データは弊社シャーシダイナモでの計測事例です。車両ならびに装着部品、燃料などにより個体差があります。

- ※ Please understand that the stock computer must be removed and rewritten.
- ※ The settings may not be compatible with vehicles equipped with other aftermarket parts.
Please contact us for more information concerning compatibility.
- ※ Cannot be combined with the PowerCon, PowerThro.

For more information please check the BLITZ POWER SITE listed below or contact the support center.

Release Date: June 5th, 2019
