Spring Type※	ST	BS
Ride Height Adjustability mm	-62 ~ 0	-52 ~ -20
Remarks	In order to install the front extension dials, the metal and plastic panels above the upper mounts must be modified. The rear damping force adjustment dials are located inside the wheel well.	

■Precautions During Installation

- 150mm extension dials are included in the kit.

In order to install them to the front suspension, the metal and plastic panels must be drilled and modified.

If the modifications are not made, the damping force can only be adjusted after uninstalling the suspension.

- The rear damping force adjustment dials are located inside the wheel well. Therefore in order to make adjustments, the wheels must be uninstalled.

■Other Remarks

- Cornering performance is enhanced by limiting vehicle roll.
- The suspension has been developed with sufficient compression and rebound stroke to ensure a comfortable ride quality.
- Lower your vehicle for a stylish look.
