

New Product Information

Bump Stops and 40mm Low Down Blocks for the HIACE DAMPER ZZ-R Full kit are now available as replacement parts.

- Bump stop, rebound stop can limit the effect of the suspension bottoming out.
- Bump stop, rebound stop have been made from tough Urethane rubber.
- Low down block has been made from aluminum and is able to lower the vehicle by roughly 40mm.
※ The front ride height can be adjusted using the torsion bar
