

## Additional Applications

# MIRACLE STROKE ADJUSTER

- By installing this product onto the rear lower arm, the position of the lower arm can be optimized. Even during low down, adequate stroke can be maintained with this bracket.
- For lowered vehicles, the stroke length is usually sacrificed. However by increasing the stroke amount, lowered vehicles can maintain a well-balanced ride quality.
- Adjustment Range with DAMPER ZZ-R  
-100mm~-40mm(MZAA10)

Product Information	
Product Name	Miracle Stroke Adjuster Rear ZVW5#/ZYX10/NGX50/MZAA10
MSRP w/tax	¥51,840
MSRP	¥48,000
Code No.	92107
JAN Code	4959094921073

### Precautions During Installation

- For wheels of certain size, the lower arm and the wheels may contact each other.
- Please use the spring spacers included in the kit if necessary.
- The ride height will be lowered when the product is installed so please adjust accordingly.
- When adding more camber, the toe measurements will be altered as well. For greater toe adjustments please purchase other necessary parts.
