

## New Product Information

# CARBON POWER AIR CLEANER

- The highly acclaimed stainless mesh filter utilized for the SUS POWER/ADVANCE POWER has been utilized.
- Conical body with M folds have been employed to maximize the intake area and balance dust collecting ability with intake efficiency.
- The Carbon Shield is able to deflect surrounding heat and successfully prevent the intake air temperature from rising.
- By making the material of the shield from Carbon, the shield itself emits very little heat.
- Dress up your engine room with the stylish Carbon Shield and Red Alumite.
