Information on Verification Test Vehicle

This product has been tested on the following vehicle.

Data taken from in house measurements.

Measurements for the vehicle height may differ depending on the vehicle's grade and options.

The distance from the ground to fender may differ even when your vehicle is set at the same measurements as the test vehicle.

Please use the following data as a reference and adjust your vehicle height accordingly.

■Precautions During Installation

- Compatible for vehicles before and after the minor change.

■Other Remarks

- Cornering performance and straight line stability have been improved by limiting body roll.
- Make adjustments to the damping force depending on the number of passengers to optimize ride comfort.
- The product has been tested to work with vehicles equipped with Pro PILOT system.

However we do not ensure the vehicle manufacturer's safety function to properly work under all conditions.

Please be aware that there is a possibility that adjusting the vehicle ride height, the radar, camera, and sensors may not function properly.
