■Precautions During Installation

- 150mm damping force extension dials are included in the kit for adjusting the front suspensions.
Metal and plastic panels above the upper mounts must be drilled and modified for installation.
If the extension dials are not installed the shock absorber must be removed in order to make adjustments.
- The wheels must be removed in order to access the rear damping force adjustment dials located inside the wheel well.
- Data on ride height adjustment from ZYX10.

■Other Remarks

- Cornering performance has been improved by limiting vehicle role.
- Sufficient compression and rebound stroke has been maintained to ensure maximum ride comfort.
- Lower your vehicle for a stylish look.
- Increase the damping force for greater stability at high speed.
