

Additional Applications

Idling Stop Jumper

DAIHATSU TAFT
IDLING STOP

【Product Characteristics】

- The 『Idling Stop Jumper』 can automatically control the Idling Stop function to be cancelled. Every time the engine starts the Idling Stop function is reset to stop the engine. By equipping the Idling Stop Jumper, the Idling Stop function can be linked to be canceled when the engine is started. Frustrating operations after the engine is turned on will be eliminated.
- Only the power, grounding and signaling wires need to be connected for installation.
- All necessary parts for installation are included.
- Built in function to convert back to normal conditions. When the Idling Stop Jumper is not needed, a simple operation can bring back the stock conditions.
