BL/TZ INFORMATION

No.2020-0296 2020/10/15 Blitz Co., Ltd.

New Product Information

Installation Example on Supra SZ-R

[Product Characteristics]

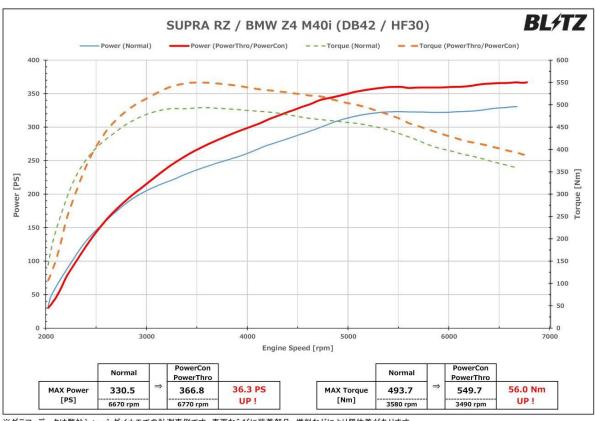

- By optimizing the boost pressure for turbo vehicles, more power can be obtained.
- Settings are taken vehicle specifically.
 Boost is increased within the level of the stock ECU to minimize the burden on the vehicle.
- Does not require any additional wiring modifications due to the plug and play design.
 The product can be easily installed since all connections are made within the engine room.
- Does not require any complicated setting procedures and power is immediately increased after installation.
- Includes all necessary parts for installation.
