

New Product Information

- The warning light that turns on after removing the stock electronically controlled suspension system can be canceled with this optional part.
- Due to the plug and play design, additional modification to the wiring is not required.
- Compatible for Toyota Supra (SZ-R/RZ) and BMW Z4(M40i).
- When the warning light is on, the traction control cannot be turned off.
However, with this product, the function can be accessed.
- Can be conveniently installed onto the lower bracket of the BLITZ DAMPER ZZ-R.
