

Additional applications for the Oil Sensor Attachment  
are now available for the 86/BRZ, N-ONE, and Civic Hatchback

# OIL SENSOR ATTACHMENT

HONDA Civic Hatchback

Product Description

- This attachment can take readings by being installed in between the stock oil filter and the engine.
- Includes 3/4-16 and M20-P1.5 center bolts. The O rings fitφ65 andφ70.
- Since the ideal mounting locations for the sensors will vary between vehicles, the attachment is threaded with three 1/8 PT holes.
- The product includes two 1/8 PT tapered plugs.
- ※ The color of the center bolt may vary from the sample photo.
- ※ Does not include Oil filter, TEMP, PRESS sensors. Please purchase them separately.
