

Addition application for the SCS HARNESS has been confirmed
for the Odyssey, Fit, and Solio

SCS HARNESS

HONDA FIT
Idling Stop

【Product Characteristics】

- Optional Harness to use the optional function, 『Start Control System』 for the 『Thro Con』/『Power Thro』.
- On normal vehicles, the settings for standardly equipped Idling Stop Function and Lexus Drive Mode Select are reset during ignition. By equipping the optional connection harness for the Thro Con, the previously selected mode can be maintained. Therefore when the engine starts, the Idling Stop Function can be automatically turned off, or have the Drive Mode selected as Sport.
- Normal conditions can be brought back by simply turning the function OFF on the 『Thro Con』/『Power Thro』 controller.
- All necessary parts for connection are included.
