

New applications for the CARBON INTAKE SYSTEM
has been confirmed for the GR86,BRZ(ZN8,ZD8)

[Click here for further information on CARBON INTAKE SYSTEM](#)

TOYOTA GR86(ZN8)

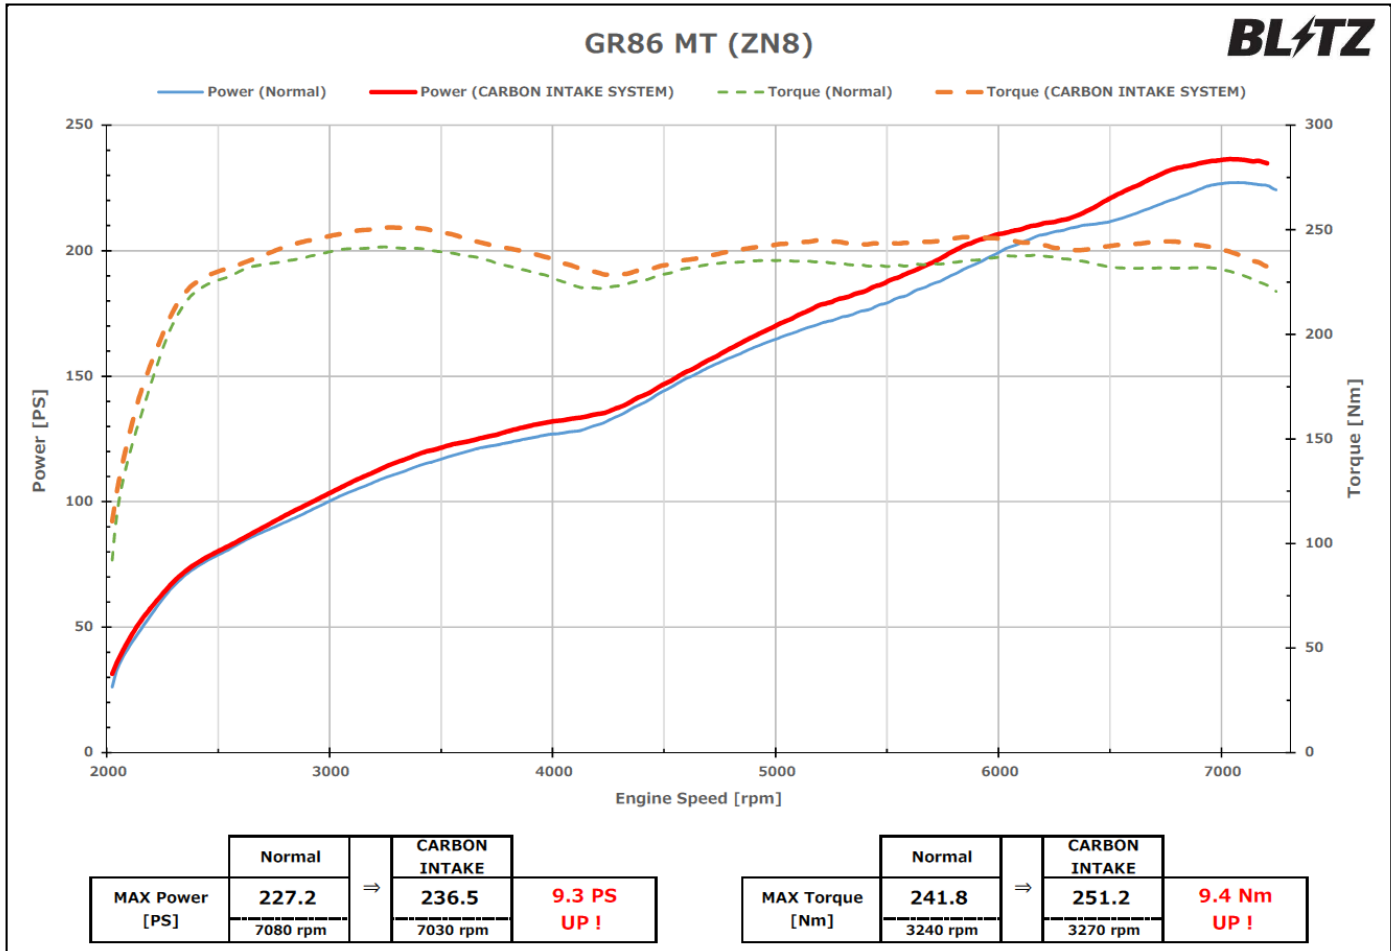

27031 CARBON INTAKE SYSTEM

Product Characteristics

- High performance intake system which has been molded vehicle specifically for precise fitment onto the engine bay.
- While being ultra-light weight, the FRP air duct and carbon fiber casing are highly durable.
- Air flow as well as intake temperature are controlled to its optimum level.
- The filter has been designed to maximize intake efficiency and designed to produce sharp intake sound.
- With proper maintenance the stainless mesh filter can be continuously used.
- Dress up your engine room with the all carbon intake system.

■ Power & Torque Data

○ Maximum HP Increase 9.3PS, Maximum Torque Increase 9.4Nm
